Education

Texas A&M University, College Station, TX Master of Science in Computer Science — May 2027
Coursework: Artificial Intelligence, Analysis of Algorithms, Computer-Human Interaction, Data Science

Vishwakarma Institute of Information Technology, Pune, India Bachelor of Technology in Information Technology — GPA: 9.12 / 10.00 — May 2024

Skills

Design & UX: HCI, Visual Design, Wireframes, Prototypes, Product Design, Mockups, User-Centered Design, Compliance
Tools & Platforms: Figma, React, PHP (MVC), Power BI, BigQuery, Jupyter, Colab
Technical: HTML/CSS, JavaScript, Python, SQL, MySQL, AWS (EC2, S3), Git/GitHub, Docker

Experience

Research Intern — Indian Institute of Technology (IIT) Bombay, Mumbai, India — Feb 2024 – Sept 2024
- Developed **data visualization dashboards and theme builder** using PHP, JavaScript, and Yii Framework, focusing on **user workflows and intuitive UI** for 20+ professors.
- Built a **Figma-to-HTML parser** with drag-and-drop functionality and a **reusable reporting theme system** for 100+ reports.
- Integrated **AJAX and MySQL** for asynchronous queries, managing 500+ layout configurations and improving report preparation efficiency by **80%**.

UI/UX Design Intern — HTS Tech Solutions, Pune, India — Jun 2022 – Dec 2022
- Designed interactive **dashboards and analytics interfaces** for housing management software with a focus on **visual design and user experience**.
- Conducted **stakeholder feedback sessions** to gather requirements and developed **wireframes and prototypes**.
- Collaborated with backend teams to integrate design insights into functional applications.

Projects

Digital Diary for School — July – Sept 2023
- Engineered an **intuitive interface** for an online school diary, enabling students to access homework, notices, and holidays effortlessly.
- Oversaw the **user-centered design process**, ensuring smooth interaction and clear navigation.

Online Travel Agency Website Design — Feb 2023
- Designed an inviting interface for flight, bus, train, and hotel bookings.
- Coordinated homepage, contact, and about pages to enhance overall **user experience and visual design**.

Happy Us — Social Well-being Platform — March 2023
- Designed and developed a dynamic website with **social media integration, habit tracker, and real-time motivational content**.
- Leveraged **Figma and React** to create engaging UI and intuitive interactions.

Activities & Leadership

Office of International Relations (OIR), VIIT — Web Designer, UI/UX Designer — Dec 2022 – Present
- Collaborated with web development team to design UI and interactions for the international cell's website.
- Developed **visually appealing, user-friendly interfaces**, optimizing navigation and information hierarchy.

Achievements

- **Publications:** First author, Springer (Automated GUI Testing, UX); co-author, IEEE (Blockchain for Disaster Relief).
- **Leadership:** Led UI/UX team at OIR, coordinating projects involving **data visualization and user analytics**.
- **International Exposure:** Completed Summer & Spring School on **Advanced Engineering and Data Science**, Tokushima University, Japan.
